

BOIL ADVISORY

Fairview Mobile Estates South Public Water System # LA1019096

September 27, 2024

For Immediate Release

The Fairview Mobile Estates South Public Water System # LA1019096 has experienced problems with our water supply system.

Specifically, the electrical landline power source has been providing inconsistent power to our water well site, causing the well site to lose power. We are working with Entergy on remedying this situation.

Because of these problems, the water produced in our water supply system is of questionable microbiological quality. Therefore, as a precaution, the Fairview Mobile Estates South Public Water System is issuing a BOIL ADVISORY effective immediately. This BOIL ADVISORY is to remain in effect until rescinded by the water system.

It is recommended that all consumers disinfect their water before consuming it (including fountain drinks), making ice, brushing teeth, or using it for food preparation or rinsing of foods by the following means:

Boil water for one (1) **full** minute in a clean container. The one-minute starts after the water has been brought to a rolling boil. (The flat taste can be eliminated by shaking the water in a clean bottle, pouring it from one clean container to another, or by adding a small pinch of salt to each quart of water that is boiled.)

Again, please be sure to disinfect your own water prior to consumption until you have been advised otherwise.

The Fairview Mobile Estates South Public Water System will rescind this Boil Advisory upon notification from the Louisiana Department of Health – Office of Public Health that additional water samples collected from our water supply system have shown our water to be safe.
